

## **PIRS – Technical Improvements**

**Release 2025.5**

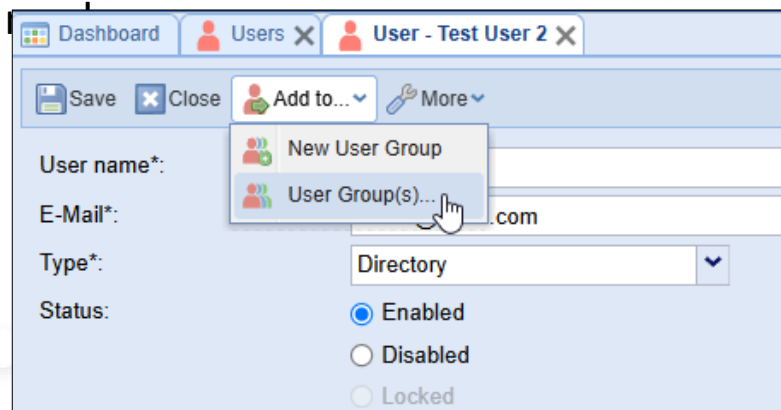

# Allow Base64 images in stamps

- Its possible to provide the logos of stamps used in the File Viewer encoded as Base64
- Advantage:
  - Image does not need to be uploaded to server
  - No image source required (link cannot break)
  - Faster loading time
- Setup:
  - Convert image to base64
  - Update setting „template.stamp.NAME“

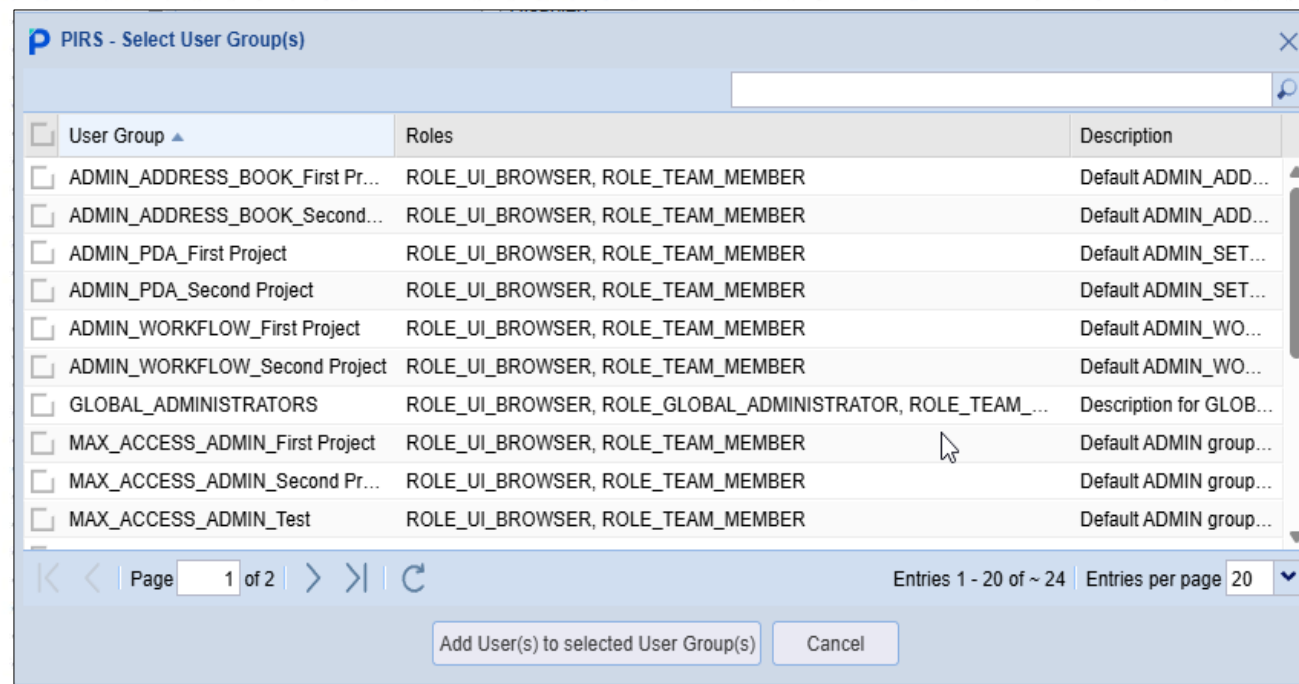

# Add User(s) to new / existing User Group(s) from User grid / Edit mode

Global admins are able to add User(s) to new / existing User Group(s) from User grid / Edit

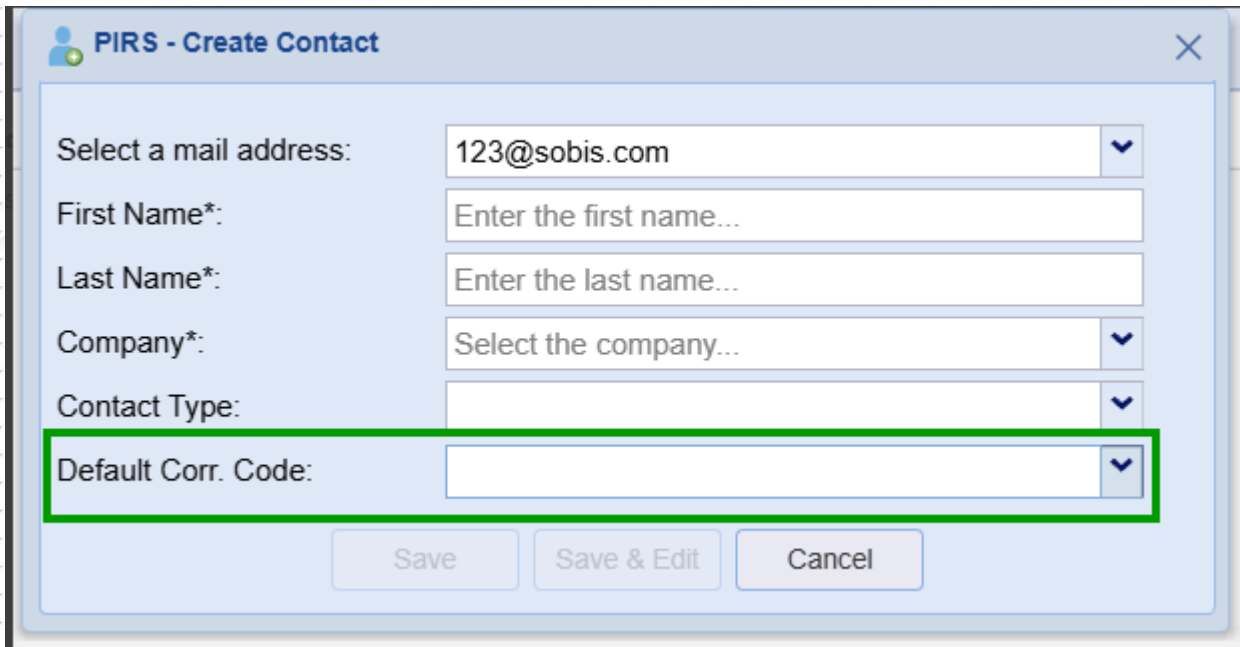

- Allows the selection of multiple groups!
- Allows processing of multiple users!

User Group	Roles	Description
<input type="checkbox"/> ADMIN_ADDRESS_BOOK_First Project	ROLE_UI_BROWSER, ROLE_TEAM_MEMBER	Default ADMIN_ADD...
<input type="checkbox"/> ADMIN_ADDRESS_BOOK_Second...	ROLE_UI_BROWSER, ROLE_TEAM_MEMBER	Default ADMIN_ADD...

## Map user with default correspondence code field

If current user is not mapped then the „Create Contact“ dialog is displayed to the user. The dialog will also provide the default correspondence code in future:

PIRS - Create Contact

Select a mail address: 123@sobis.com

First Name\*: Enter the first name...

Last Name\*: Enter the last name...

Company\*: Select the company...

Contact Type:

Default Corr. Code:

Save Save & Edit Cancel

# Provide possibility to use multiple sharepoint quartz jobs

The existing Sharepoint API has been enhanced.

It is now possible to define multiple jobs to transfer files to (different) Sharepoint sites.
