

PIRS – Improvements

Release 2025.8

- Filing Wizard - Replace "Document / Documents" with "E-Mail / E-Mails"
- Grids - Disable "Blank" and "Not Blank" filters for columns where these filters do not make any sense
- PIRS API - Return e-mail of from, responsible and involved contacts of Action Items
- Workflow - Select responsible contacts / groups window: auto-focus the responsible field
- My settings dialog - Show additional user settings
- PIRS archive - Use lower case filename extension
- PIRS archive - Hide PIRS header for mails received from portals
- PIRS archive - Display draft flag for correspondence
- Project Import - Remove mandatory flag for contact type in project import sheet
- Project Import - Add job title column for Contacts
