## Import Results:

- New index column
- Sort by file name

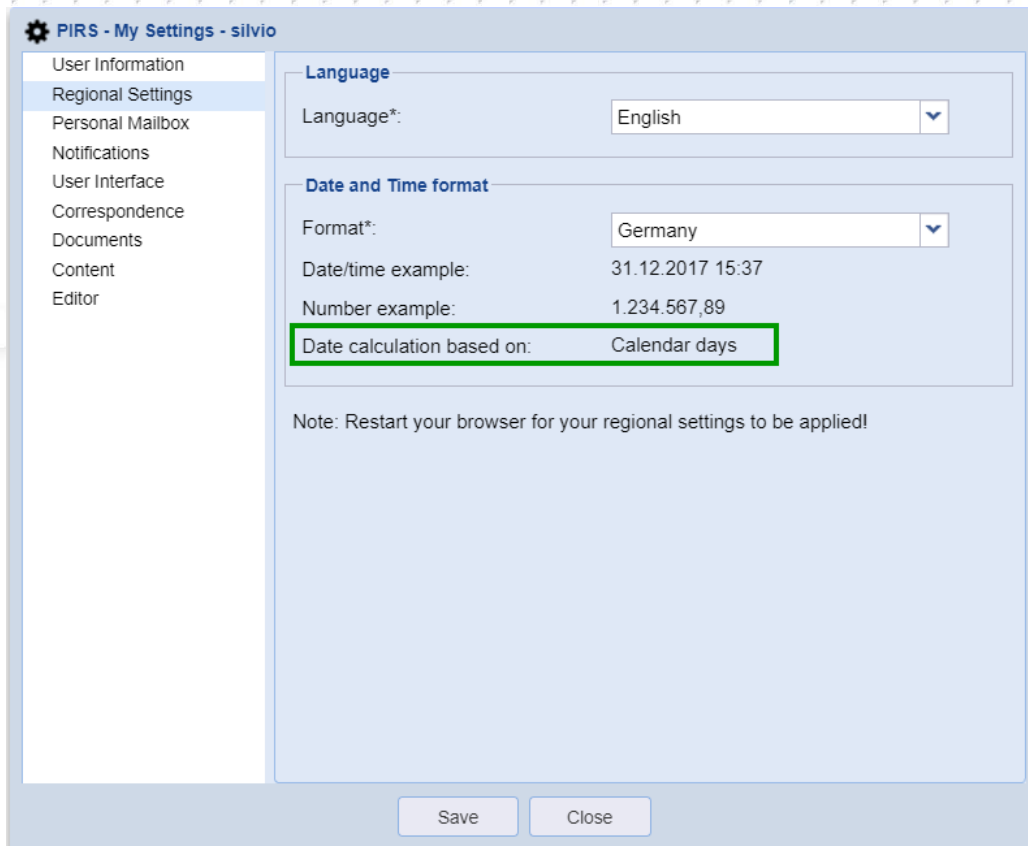

# Provide new option to share links to views

# Show date calculation under my settings

Default:

PIRS - My Settings - silvio

- User Information
- Regional Settings
- Personal Mailbox
- Notifications
- User Interface
- Correspondence
- Documents
- Content
- Editor

**Language**

Language\*: English

**Date and Time format**

Format\*: Germany

Date/time example: 31.12.2017 15:37

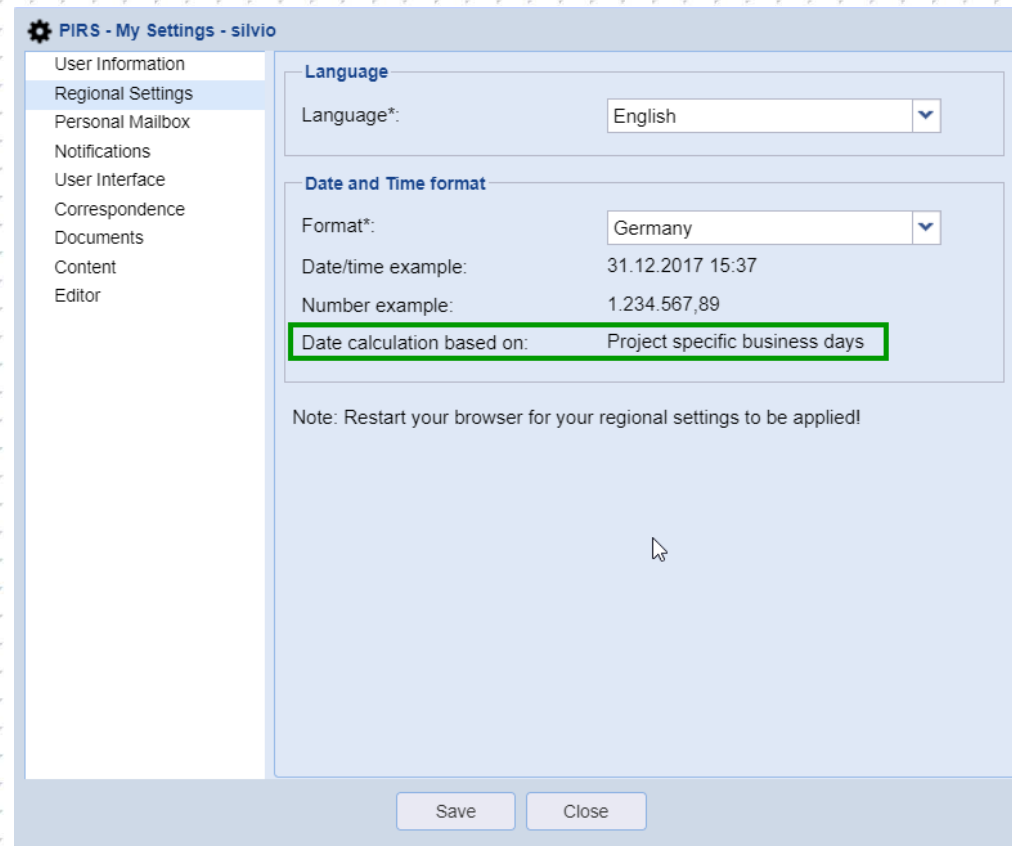

Number example: 1.234.567,89

Date calculation based on: **Calendar days**

Note: Restart your browser for your regional settings to be applied!

Save Close

If project specific working days are defined:

PIRS - My Settings - silvio

- User Information
- Regional Settings
- Personal Mailbox
- Notifications
- User Interface
- Correspondence
- Documents
- Content
- Editor
